

Restriction due to disability allowance

In connection with my studies, I receive a disability allowance as part of my student grant. This is a subsidy provided to ensure that I can complete my education on equal terms with other students, as my disability (autism) prevents me from having a full-time student job alongside my studies. Therefore, I'm only allowed to work a maximum of 5-6 hours per week and earn approximately 3.700 kr. per month, as these are the limits for retaining the allowance— otherwise, I can risk losing it.

However, even though the number of hours and the salary are significantly lower than a typical student job, I'm fully motivated and committed during the time that I work. I prioritise quality over quantity and will always do my best to deliver solid work.

Documentation relating to my disability allowance is attached to this document. Please note that the listed documentation is in Danish, as it is issued by the Danish authorities. I hope this is understandable and thank you for your consideration.

Kind regards,
Sara Ringkow Petersen
