

APPLICATION - [COMPANY NAME] (DATE)

Hi,
I'm applying for the position of [name of position], as your work with [insert briefly – e.g. digital solutions, e-commerce, communication or user experience] aligns very well with my own focus on creating user-friendly and accessible digital solutions.

About me

I'm currently studying a Top-up Bachelor's degree in Digital Concept Development at Zealand and have a background as a Multimedia Designer from KEA.

I have a strong interest in UX, digital design, accessibility, and concept development. I enjoy working with digital solutions that combine usability, structure, and visual communication, and I thrive in tasks that require attention to detail and a user-centred approach.

Skills

Through my studies and projects, I've gained experience with UX and digital design, frontend development, accessibility, and digital concept development. I work comfortably with tools such as Figma, HTML, CSS, JavaScript, Astro, and Tailwind, and I have experience with SEO and accessibility testing.

I've particularly noticed your focus on [company-specific detail], and I would be highly motivated to contribute to similar solutions as part of your team.

I hope you find my profile relevant and I look forward to hearing from you!

Best regards,
Sara Ringkow Petersen
